

Julia de Burgos Elementary School

This K-8 school for The School District of Philadelphia was designed by Susan Maxman & Partners Architect for a Latino neighborhood in North Philadelphia. Viridian Landscape Studio designed the streetscapes and large courtyards which serve as entry points for the children as they weave their way through the neighborhood to school. Expansive views of the landscaped courtyards enrich the students' day as they pass through the glazed entry and circulation spine that overlook the courtyards and playgrounds.

Location: Philadelphia, Pennsylvania
